BLACK WORKERS RADICALISM
(Huber & Winfield Foundries Nov'69)

Drained of his lifeblood for a peaceful future that seems just in reach of the next generation the Black workers are watching as the next generation step into the same yoke as their forefathers - the hunger of stomachs and human respect drained from their beautiful Black bodies in the name of pride AND ~~the~~ democracy where you work to make others rich.

Since the liberation movement of the Afro-American people/America is finding it harder to lie of the desperate racial conflict that is focusing world attention on the existence of RACISM IN AMERICA. It does exist and in the foundries is where it shows its head most abusively. Black workers constitute the bulk of the labor force which is no accident but a planned act & is quite unique in the annals of white workers prosperity at the expense of the Black labor force. The melting area is almost 100% Black, the cleaning room is 95%, the core room 90% & the skill trades areas are just the reverse 95% white. There was a walkout in the melting area over the firing of a worker and yet only the workers from the melting area walked out in protest while the rest of the workers continued on working and being harassed & persecuted. What type of unity is that? If the melting area is 100% Black than the worker who was disciplined must have been Black & if he wasn't than we have a slogan to fit/WORKERS OF ALL COUNTRIES, UNITE! BLACK/YELLOW/RED & WHITE UNITE to end the exploitation of our class...but anytime you have just a few Black workers radically risking their jobs in defense of a fellow worker/it's proof of a purely speculative revolutionary attitude of Black workers radicalism. The lack of support of the other workers makes one realize the lack of a revolutionary attitude towards each other. All Black people suffer the same hardships in a racist society, economic hardships and social persecutions which effect Black workers even more so because they are placed at the bottom of the ladder of success. Will only be reversed when the Afro-American people cast away their illusions/give management tit for tat & fight against this racist country in supporting South Africa in its fascist aggression against ~~the~~ ^{our} people and our homeland AFRICA.

The protectors of liberty have suddenly made downtown Detroit the safest place in Michigan/Law & Order against the workers of the world has suddenly got the man they wanted for Mayor so we are looking objectively at what this means to the Black working man. Historically Detroit was a small city & has grown with a Black population growin' up in Black Bottom & Hastings. As the Black population grew the white's moved further away and Det' expanded/12th St became the Getto & the Jews moved out to the mile Rds with our bourgeois Kneegrooves right nippin at their heels, the suburbs just a blooming into ~~bein~~ being with their racism too/Southfield, Livonia, Warren, Dearborn, ETC... Black workers exploited day & night with the added weight that downtown is unsafe as long as Black people are around but nothing is done about the continued lack of decent housing or the little that is done is blown all out of proportion into that they're (the ruling class) ~~is~~ ^{are} doing a whole bunch. Automation with its cybernetics puts more & more Black workers out of a job & the Corporate managers exploit the excess of Black labor left without jobs. So the only alternative to a man who is starvin is to take from those who have especially if you're denied self respect. Our protectors of liberty are out in them streets to protect the white property owners continue their exploitation on the Black workers. Houses that aren't fit to live in costing a Black worker a life time more than it actually cost & then to deny him decent protection from fire, theft, & riots cause he lives in a highly populated area & therefore a high risk area, it just don't make sense unless you figure that the biggest rip-off is just up ahead/OL' White CHRISTMAS/& everyone has got to give a gift that has a price on it that is inflated so they need more police to protect their wares...we must respond to this denial of self-respect by thoroughly critizing & plunge bravely into the battle against RACISM & EXPLOITATION...WORKERS OF ALL COUNTRIES, UNITE!!! DARE TO FIGHT...DARE TO WIN.. FIGHT ON TO VICTORY...LONG LIVE THE LEAGUE OF REVOLUTIONARY BLACK WORKERS... LONG LIVE DRUM & DEATH TO THEIR ENEMIES...
