WUPA WATERGATE
IMPEACHMENT

WORKERS UNITED FOR POLITICAL ACTION

Workers United for Political Action (W.U.P.A.) is an immediate response of workers to the outlandish attack on democracy and crisis in the government exemplified by the Watergate affair. It is an organization of civic-minded fighting working people who are absolutely determined to struggle against the corruption and bribery, recently pursued by the Nixon administration of the US government. This struggle reached its peak around the Watergate scandal when various local unions, community groups and responsible citizens passed similar resolutions condemning the rotten Nixon administration and demanding the immediate resignations of the scoundrels involved in the affair. Recent press reports about their corruption speak for themselves.

The purpose of WUPA is:

1. To tirelessly expose all the corruption, bribery and attacks on democracy wherever it may raise its ugly head. Whether it raises its foul head in unions or communities and regardless of race, color, creed, or national origin.
2. To educate the working people to the political corruption in government, unions and in the communities and to fight to better understand the functions of the government and how it affects our daily lives.
3. To show that all our struggles are not isolated and stress the real need of unity of all working people.
4. To fight for quality education, better nutrition, better housing, better medical facilities for working people, more recreation, and to fight for a democratic society.
5. To fight for President Richard M. Nixon's resignation along with the entire administration involved in Watergate.

Membership in W.U.P.A. is given to anyone who doesn't exploit the labor of others, whether they be employed or unemployed, men or women, and regardless of national origin, race, color, or creed.

An initial fee of \$3.00 and \$1.00 a month dues is a minimum demand for financial support.

EXPONER AL DEGENERADO GOBIERNO DE NIXON!

REPORT WORKERS UNITED FOR POLITICAL ACTION ACTIVITIES:

WUPA inits effort to show that the struggles of the working class are not isolated and to further forge that unity between people inthe community, churches, schools, unions, factories and all working people in general has been trying to set up a method of staying abreast of the news that concerns the working people and try to show them how it affects their daily lives.

One of the methods WUPA is working on is to try to get a leaflet out on all important issues as they come up. WUPA has put a leaflet out on the Detroit Forge work stoppage, the Mack Stamping Plant work stoppage, the Detroit Federation of Teachers strike & will be continuing to put leaflets out whenever they can.

The progress on the petitions calling for the resignation or impeachment of Pres. Nixon & Vice.Pres. Agnew (who seems to be on his way out to take the heat off Watergate & Pres. Nixon)has been highly successful. We have been able to get endorsements from some Block-clubs and community groups but we still need all the petitions that people took to get signatures and have not returned them. Petitionsare still available for those who would like to fill them up and get on Pres. Nixon's case.

WUPA's fight for quality education has at this stage taken the form of active support of the DFT's struggle for smaller classes, more & better equipment, cost of living allowance & accountability of the teachers to the community & not to the Board of Education by way of their pet principals.

WUPA has become aware of the governments program for supplement food and the proposed eligibility rules of taking blood from a childs skull or jugular vein in order to prove their malnutrition and are violently opposed to such treatment of innocent children. To go to such measures to get supplemental food is absurd, for everyone knows that low income people do not eat right and most of their children are anemics, so it must be viewed as an out an out attack on working people and their children. Also a member of WUPA has made contact with a group of people working with Detroit General Hospital & Childrens' Hospital. This group of concern citizens are working to ensure that poor working people with sick children are ensured a place to take their child, that the cost of the use of the emergency room is ascertain by these peoples ability to pay, and are waging a vigilant struggle to see that none of these services available to children at Det. General Hospital are cut off at Children's. (This group needs help and we urge anyone interested in working with them to contact WUPA)

In relation to the housing and recreation facilities our struggles regretfully have been at a standstill. We are hopeful however that in the future we will have someone working with these aspects of the wokers lives which are so vital and necessary for the survival of working people.

WUPA again stresses the fact that it is looking to expose all corruption and bribery and attacks on democracy wherever it raises its ugly head. This is one our main tasks. For **only** by exposing this filth can we be constantly aware of this disease that affects all our daily lives. Only when **we** began to see how it affects each and everyone of our lives can we see the need for the unity that is necessary in order for us to begin to wage an all out battle against all this corruption, bribery and attacks on our democratic rights.
