NELSON PEERY

SPEAKING ON:

General Secretary, Communist Labor Party

“The Negro National Colonial Question”

“...the Negro question is not a race question or a question of a national minority, but a national question and an integral part of the world colonial revolution.”

“There can be no question that the Negro people's national liberation movement (including the movement of the Negro national minority workers) has opened the gates of the socialist revolution.”

There are many opinions within CCC on this critical and controversial question. We present one analysis, and intend to allow ample time for table discussion and dialogue with the speaker. We will begin promptly at 7:30, so please be on time.
