VOL.1 NO. 1 THE MACK AVE. REVOLUTIONARY UNION MOVEMENT

NO SUPPORT FOR AUSTIN IN THE UAW.

You have all heard that the UAW endorsed Austin for Mayor, well this is still the old game they play, (put you in a trick bag).

Lets look at some facts, we heard there was a Beer bust at the local in Austin's behalf, but the funny thing about this bust didn't anyone hear about it until it was all over. It was about a dozen people attending.

OBSERVE: There are no members out of the plant working in Austin's behalf and as we understand it's only a handful of UAW Staff members out. Local 212 won't spend a dime for Austin not if they can help it and Dallas Dorman will blame the UAW, now let's look at what happened when a honkey is running, it is from 30 to 40 people out working in their behalf, just goes to show what these honkies will do, and they are doing it with your dues money, (this shit must stop and stop now.)

LEADERSHIP MUST SET GOOD EXAMPLES

Leadership must set good examples not merely offer good advice. We refer to the honkey pig Vasko, he was paid off for stealing. Now stealing is stealing regardless what hidious form it appears in, whether it's going out of the plant with a pencil or a pair of gloves or getting paid and being out of the plant, the only difference is when someone is punching your card and you are out in the bar or at home this costs much more than a pencil. Notwithstanding we are waiting to see just what the racist Union will give up to get this greedy pig back to work. All black workers better beware because these racist honkies will sell you out just to get this damn theif back.

Charlie Gassam (the Arab) was off 23 months for stealing but at that time he wasn't a green slater. We are watching the pig very closely, we are also watching the Union Payroll too because fat ass Steve Despot will have him on there.

COMMITTEE

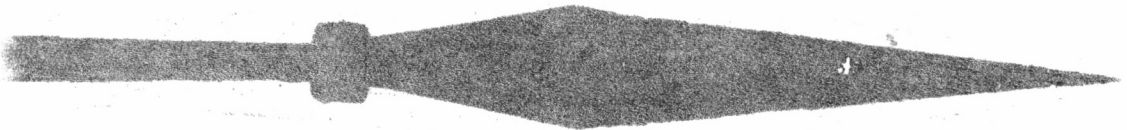

Ever stop to think why we have four honky Committeemen and two blacks? Well, the honky is tricky, and he not only has control of the local with his greedy ass but the mack plant shop committee as well. (WHY) because these Uncle Tom Black bastards helped them, Bill Marshall with his Uncle Tom ass along with Bias Honden, Stanley James, Sam Weary and Joe Trent went around selling the people this Green Slate shit for their own selfish gain, You toms will have to go.

Take a look at the leading vote getter on the committee, this honky Joe Williams has never done anything for no Blacks, no time no place nor under any circumstances, but buy them some drinks to mess up their minds. This shit will have to stop, we have news for this whole committee if we can't get some action one way with our problems then there are other ways. Charlie Gassam don't think that he is being watched, because he is trying to make some shady deals, he better hope his deals never come through.

You brothers in the Press Room, especially in and around those Rail lines, you must stop, trying to be individualists, you must learn to work together, you must stop ripping and running just to get a ten minute break, You won't do anything but make the racist corp. go up on the production, and it will be you in the end who will catch Hell so watch it fellows.

Watch for the next Issue concerning these greedy merchants in and around the Plant who are robbing you silly and at heart they hate the ground you walk on.

Join MACK RUM

FIRST AID AND GROUP INSURANCE

Who would ever think that even the First Aid has racist overtones. Well it does, that Doctor down there is full of shit especially when it comes to a Black worker. he forces people back to work whether they are well or not and if you don't go back that damn group insurance is cut off or you are fired. This type of procedure must stop, because anytime a black worker is not allowed to get sick then it is something drastically wrong. You can't call on the racist union to do anything about it because they uphold this shit and besides, all they want is your dues money.

9790 AND 9760 DEAPRTMENTS

In 9790 the black brothers have to be careful because the racist corporation does anything they want to whether it's safe or other wise and these ass hole chief Stewards go along with it. Stanley James and Sambo Weary aren't capable of being leaders, in the first place these toms will do anything Bill Marshall tells them to do whether it's right or wrong, and Bill Marshall takes his orders from that rotten green slate. Of course we don't know why Sambbo listens to him because he put his foot in his ass for the honkey during the last election.

What you workers of 9790 need to do is get yourselves some different stewards and we will put Bill Marshall's tom ass black in the plant. In 9760 you will have to keep your eyes open there too because these two chump stewards are the world's greatest deal makers.

Frank Brown yells real loud but he doesn't say a damn thing. A work to Mr. Dunbar, you will never be able to better your job because the corp. and the Union are in collusion against you, so until you clear out these toms and those racist committemen you might then make some progress. Call a spade a spade, tell it like it is.

DEPARTMENT 9740

Black workers must beware in 9740 because this damn Doty is forever on the move trying to intimidate the Black workers, pay off everyone he can or he gives you time off for no good reason and we are getting damn sick of this shit, we know he was mixed up in that Mike Polite deal and has no use for Black workers. What he should be doing is sending these pig formen to school so they can learn how to treat people, he is not indispensible and he can also be taken care of.

Of course, the reason hy gets away with this shit is because Charlie Gassam and Don Shradder go along with it, don't either one have the black workers interest at heart. Don honkey should give up his button for what good he is doing, as a matter of fact if he doesn't get on the ball pretty soon, some other measures will have to be taken.

All that talk about 9740 and 9750 being separated, this shit would only happen if the honkey sees an advantage in it, and the advantage would be all black workers would hit the street first in case of a layoff. This shit was probable started by this racist ass Shop Committee and the pigs at the local and it all boils down to one thing. GET THE PIG BACK
